INTRODUCTION

This document (the "**GUIDELINE**") is to be used as a guideline with regard to the composition, calculation and maintenance of the SOLACTIVE MULTI-SECTOR COVERED CALL ETFs INDEX (the "**INDEX**"). Any amendments to the rules made to the GUIDELINE are approved by the OVERSIGHT COMMITTEE specified in Section 5.5. The INDEX is owned, calculated, administered and published by Solactive AG ("**SOLACTIVE**") assuming the role as administrator (the "**INDEX ADMINISTRATOR**") under the Regulation (EU) 2016/1011 (the "**BENCHMARK REGULATION**" or "**BMR**"). The name "Solactive" is trademarked.

The text uses defined terms which are formatted with "SMALL CAPS". Such Terms shall have the meaning assigned to them as specified in Section 6 (Definitions).

The GUIDELINE and the policies and methodology documents referenced herein contain the underlying principles and rules regarding the structure and operation of the INDEX. SOLACTIVE does not offer any explicit or tacit guarantee or assurance, neither pertaining to the results from the use of the INDEX nor the level of the INDEX at any certain point in time nor in any other respect. SOLACTIVE strives to the best of its ability to ensure the correctness of the calculation. There is no obligation for SOLACTIVE – irrespective of possible obligations to issuers – to advise third parties, including investors and/or financial intermediaries, of any errors in the INDEX. The publication of the INDEX by SOLACTIVE does not constitute a recommendation for capital investment and does not contain any assurance or opinion of SOLACTIVE regarding a possible investment in a financial instrument based on this INDEX.

1. INDEX SPECIFICATIONS

1.1. SCOPE OF THE INDEX

Category	Description
Asset Class	Equity
Strategy	Equal weight representation of sector ETFs with an overlay of covered call options and a geographical focus in North America
Regional Allocation	North America
Rebalancing Fee	-
Rebalancing Frequency	Semi-annually

1.2. IDENTIFIERS AND PUBLICATION

The INDEX is published under the following identifiers:

Name	ISIN	Currency	Type	RIC	BBG ticker
Solactive Multi-Sector Covered Call ETFs Index PR	DE000SLODNM6	CAD	PR*	.SOLMSCCP	--
Solactive Multi-Sector Covered Call ETFs Index NTR	DE000SLODNN4	CAD	NTR*	.SOLMSCCN	--
Solactive Multi-Sector Covered Call ETFs Index TR	DE000SLODNP9	CAD	GTR*	.SOLMSCCT	SOLMSCCT

*PR, NTR, GTR means that the Index is calculated as price return, net total return and, gross total return Index as described in the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>

The INDEX is published on the website of the INDEX ADMINISTRATOR (www.solactive.com) and is, in addition, available via the price marketing services of Boerse Stuttgart GmbH and may be distributed to all of its affiliated vendors. Each vendor decides on an individual basis as to whether it will distribute or display the INDEX via its information systems.

Any publication in relation to the INDEX (e.g. notices, amendments to the GUIDELINE) will be available at the website of the INDEX ADMINISTRATOR: <https://www.solactive.com/news/announcements/>.

1.3. INITIAL LEVEL OF THE INDEX

The initial level of the INDEX on the 31/07/2015, the START DATE, is 1000. Historical values from the 01/07/2021, the LIVE DATE, will be recorded in accordance with Article 8 of the BMR. Levels of the INDEX published for a period prior to the LIVE DATE have been back-casted.

1.4. PRICES AND CALCULATION FREQUENCY

The level of the INDEX is calculated on each CALCULATION DAY from 3:30 a.m. to 10:50 p.m. CET based on the TRADING PRICES on the EXCHANGES on which the INDEX COMPONENTS are listed. TRADING PRICES of INDEX COMPONENTS not listed in the INDEX CURRENCY are converted using the current Intercontinental Exchange (ICE) spot foreign exchange rate. Should there be no current TRADING PRICE for an INDEX COMPONENT, the later of: (i) the most recent CLOSING PRICE; or (ii) the last available TRADING PRICE for the preceding TRADING DAY is used in the calculation.

In addition to the intraday calculation a closing level of the INDEX for each CALCULATION DAY is also calculated. This closing level is based on the CLOSING PRICES for the INDEX COMPONENTS on the respective EXCHANGES on which the INDEX COMPONENTS are listed. The CLOSING PRICES of INDEX COMPONENTS not listed in the INDEX CURRENCY are converted using the 04:00 p.m. London time WM Fixing quoted by Reuters. If there is no 04:00 p.m. London time WM Fixing for the relevant CALCULATION DAY, the last available 04:00 p.m. London time WM Fixing will be used for the closing level calculation.

1.5. LICENSING

Licenses to use the INDEX as the underlying value for financial instruments, investment funds and financial contracts may be issued to stock exchanges, banks, financial services providers and investment houses by SOLACTIVE.

2. INDEX SELECTION

On each SELECTION DAY and REVIEW DAY, the INDEX ADMINISTRATOR will revise the composition of the INDEX.

In a first step, the INDEX ADMINISTRATOR determines the INDEX UNIVERSE in accordance with Section 2.1. The INDEX UNIVERSE comprises all those financial instruments which fulfill the INDEX UNIVERSE REQUIREMENTS (as specified in Section 2.1) and will constitute a starting pool from which the components of the INDEX will be selected. Based on this INDEX UNIVERSE, the new composition of the INDEX will be determined by applying the rules outlined in Section 2.2.

Each new INDEX COMPONENT will be assigned a weight as described in Section 2.3.

2.1. INDEX UNIVERSE REQUIREMENTS

The initial composition of the INDEX as of the LIVE DATE is based on a basket containing the following securities:

Component	Name	ISIN	Ticker
1.	BMO Covered Call Canadian Banks ETF	CA05560U1049	ZWB CT Equity
2.	BMO Covered Call Utilities ETF	CA05590N1042	ZWU CT Equity
3.	Harvest Healthcare Leaders Income ETF	CA41755F1071	HHL CT Equity
4.	Harvest Tech Achievers Growth & Income ETF	CA41755D1024	HTA CT Equity
5.	CI US & Canada LifeCo Income ETF	CA12555K1093	FLI CT Equity
6.	Horizons Enhanced Income Gold Producers ETF	CA44049Q2027	HEP CT Equity
7.	CI Energy Giants Covered Call ETF Trust Units	CA12555B1094	NXF CT Equity

On each REVIEW DAY and SELECTION DAY, the REPLACEMENT LIST is determined, comprising all the securities that satisfy the following requirements:

- Classified as Exchange Traded Fund (ETF)
- Listed on the Toronto Stock Exchange
- ETF Geographical Region is North America, Canada, US or US & Canada (according to FactSet definitions)
- ETF Asset Class is Equity (according to FactSet definitions)
- ETF has an overlay of covered call options

- Fund currency is CAD

Moreover, each component of the REPLACEMENT LIST must satisfy the following additional criteria:

- Management Fee below or equal to 85 basis points
- Assets Under Management (AUM) of at least CAD 20 Million on the SELECTION/REVIEW DAY
- First TRADING PRICE record at least 365 days prior to and including the SELECTION/REVIEW DAY

The INDEX UNIVERSE is comprised of all financial instruments which fulfill the below requirements (the “INDEX UNIVERSE REQUIREMENTS”):

- Each security selected as INDEX COMPONENT on the previous SELECTION/REVIEW DAY and each component of the REPLACEMENT LIST is eligible for inclusion

The determination of the INDEX UNIVERSE is fully rule-based and the INDEX ADMINISTRATOR cannot make any discretionary decisions.

2.2. SELECTION OF THE INDEX COMPONENTS

Based on the INDEX UNIVERSE, the initial composition of the INDEX as well as any selection for an ordinary rebalance is determined on the SELECTION DAY or REVIEW DAY in accordance with the following rules (the “INDEX COMPONENT REQUIREMENTS”):

Each component of the INDEX UNIVERSE must fit in one following Index Categories based on its ETF CATEGORY, ETF SECTOR or ETF NICHE Classification:

Index Category	FactSet Classification
Banks	<u>ETF Niche:</u> Banks Regional Banks
Utilities	<u>ETF Focus:</u> Utilities
IT	<u>ETF Focus:</u> Information Technology
Insurance	<u>ETF Niche:</u> Insurance

	Property & Casualty Insurance
Gold Miners	<u>ETF Niche:</u> Gold Miners Metals & Mining
Energy	<u>ETF Focus:</u> Energy
Health Care	<u>ETF Focus:</u> Healthcare
Broad Market	<u>ETF Category:</u> Size and Style High Dividend Yield

On each REVIEW DAY and SELECTION DAY, each security selected as INDEX COMPONENT on the previous SELECTION/REVIEW DAY will be reviewed. If a security fulfils one of the following criteria, the security will be removed from the selection:

- Delisted
- Assets Under Management (AUM) below CAD 20 Million on the SELECTION/REVIEW DAY
- Sum of the Last Twelve Months Ordinary Dividends decreased by more than 20% compared to the Sum of the Last Twelve Months Ordinary Dividends calculated on the previous SELECTION/REVIEW DAY and, if at least another component of the REPLACEMENT LIST is assigned to the same Index Category:
 - at least another component of the REPLACEMENT LIST, assigned to the same Index Category, has a higher Indicated Dividend yield

or, if no component of the REPLACEMENT LIST is assigned to the same Index Category:

- at least another component of the REPLACEMENT LIST is assigned to the Broad Market Index Category, as define in the table above, and has a higher Indicated Dividend yield

First, all securities selected as INDEX COMPONENT on the previous SELECTION/REVIEW DAY are sorted by Indicated Dividend yield in ascending order. All the securities passing the filters are selected as INDEX COMPONENTS. If less than 7 securities are selected as INDEX COMPONENTS, an eligible replacement security is selected in an iterative manner as an INDEX COMPONENT, in accordance with the criteria defined below, until the INDEX consists of 7 INDEX COMPONENTS

At each REVIEW DAY and SELECTION DAY, the securities in the REPLACEMENT LIST are sorted and the replacement is identified in accordance with the following rules:

1. Sort the remaining securities by Indicated Dividend yield in decreasing order
2. Select the security, that is not yet included as INDEX COMPONENT, with the highest Indicated Dividend yield and assigned to the same Index Category of the security being removed from the selection
3. If no replacement is identified after Step 2, select the security, that is not yet included as INDEX COMPONENT, with the highest Indicated Dividend yield and assigned to the Broad Market Index Category

If less than 7 securities from the INDEX UNIVERSE fulfill the selection criteria, the INDEX consists of less than 7 INDEX COMPONENTS.

The selection of the INDEX COMPONENTS is fully rule-based and the INDEX ADMINISTRATOR cannot make any discretionary decision.

2.3. WEIGHTING OF THE INDEX COMPONENTS

On each SELECTION DAY, each INDEX COMPONENT is assigned an equal weight.

On each REVIEW DAY, if a security fulfils any of the exclusion criteria mentioned above leading to the selection of a replacement, each INDEX COMPONENT is assigned an equal weight.

3. REBALANCE

3.1. ORDINARY REBALANCE

In order to reflect the new selection of the INDEX COMPONENTS determined on the SELECTION DAY or REVIEW DAY (in accordance with Section 2.1 and 2.2) the INDEX is adjusted on the REBALANCE DAY or REVIEW ADJUSTMENT DAY after CLOSE OF BUSINESS.

This is carried out by implementing the weights as determined on the SELECTION DAY or REVIEW DAY.

For more information on the rebalance procedure please refer to the Equity Index Methodology, which is incorporated by reference and available on the Solactive website: <https://www.solactive.com/documents/equity-index-methodology/>.

SOLACTIVE will publish any changes made to the INDEX COMPONENTS with sufficient notice before the REBALANCE DAY on the SOLACTIVE website under the section "Announcement", which is available at <https://www.solactive.com/news/announcements/>.

3.2. EXTRAORDINARY REBALANCE

The INDEX is not rebalanced extraordinarily.

4. CALCULATION OF THE INDEX

4.1. INDEX FORMULA

The INDEX is calculated as a price return, net total return and, gross total return Index.

The calculation is performed according to the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>. The standard index formula stipulates that the level of the INDEX changes based on the change of the prices of its INDEX COMPONENTS taking into account their weight in the INDEX and any currency conversion in case the price of an INDEX COMPONENT is quoted in a currency other than the INDEX CURRENCY.

Any dividends or other distributions are reinvested back into the INDEX COMPONENT paying the dividend or other distribution at the opening of the effective date (the so called ex-date) of the payment of such dividend or other distribution.

A more detailed description of the mechanics of the index calculation formula can be found in the Equity Index Methodology under Section 1.2.

4.2. ACCURACY

The level of the INDEX will be rounded to two decimal places. TRADING PRICES and foreign exchange rates will be rounded to six decimal places.

4.3. ADJUSTMENTS

Under certain circumstances, an adjustment of the INDEX may be necessary between two regular REBALANCE DAYS. Such adjustment has to be made if a corporate action (as specified in Section 4.4 below) in relation of an INDEX COMPONENT occurs. Such adjustment may have to be done in relation to an INDEX COMPONENT and/or may also affect the number of INDEX COMPONENTS and/or the weighting of certain INDEX COMPONENTS and will be made in compliance with the Solactive Equity Index Methodology, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>.

SOLACTIVE will announce the INDEX adjustment giving a notice period of at least two TRADING DAYS (with respect to the affected INDEX COMPONENT) on the SOLACTIVE website under the Section “Announcements”, which is available at <https://www.solactive.com/news/announcements/>. The INDEX adjustments will be implemented on the effective day specified in the respective notice.

4.4. CORPORATE ACTIONS

As part of the INDEX maintenance SOLACTIVE will consider various events – also referred to as corporate actions – which result in an adjustment to the INDEX between two regular REBALANCE DAYS. Such events have a material impact on the price, weighting or overall integrity of INDEX COMPONENTS. Therefore, they need to be accounted for in the calculation of the INDEX. Corporate actions will be implemented from the cum-day to the ex-day of the corporate action, so that the adjustment to the INDEX coincides with the occurrence of the price effect of the respective corporate action.

Adjustments to the INDEX to account for corporate actions will be made in compliance with the Equity Index Methodology, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/equity-index-methodology/>. This document contains for each corporate action a brief definition and specifies the relevant adjustment to the INDEX variables.

While SOLACTIVE aims at creating and maintaining its methodology for treatment of corporate actions as generic and transparent as possible and in line with regulatory requirements, it retains the right in accordance with the Equity Index Methodology to deviate from these standard procedures in case of any unusual or complex corporate action or if such a deviation is made to preserve the comparability and representativeness of the INDEX over time.

SOLACTIVE considers following, but not conclusive, list of corporate actions as relevant for INDEX maintenance:

- Cash Distributions (e.g. payment of a dividend)
- Stock distributions (e.g. payment of a dividend in form of additional shares)
- Stock distributions of another company (e.g. payment of a dividend in form of additional shares of another company (e.g. of a subsidiary))
- Share splits (company's present shares are divided and therefore multiplied by a given factor)
- Reverse splits (company's present shares are effectively merged)
- Capital increases (such as issuing additional shares)
- Share repurchases (a company offer its shareholders the option to sell their shares to a fixed price)
- Spin-offs (the company splits its business activities into two or more entities and distributes new equity shares in the created entities to the shareholders of the former entity)
- Mergers & Acquisitions (transaction in which the ownership of a company (or other business organizations) are transferred or consolidated with other entities, e.g. fusion of two or more separate companies into one entity)
- Delistings (company's shares are no longer publicly traded at a stock exchange)
- Nationalization of a company (effective control of a legal entity is taken over by a state)
- Insolvency

4.5. RECALCULATION

SOLACTIVE makes the greatest possible efforts to accurately calculate and maintain its indices. However, errors in the determination process may occur from time to time for variety reasons (internal or external) and therefore, cannot be completely ruled out. SOLACTIVE endeavors to correct all errors that have been identified within a reasonable period of time. The understanding of “a reasonable period of time” as well as the general measures to be taken are generally depending on the underlying and is specified in the Solactive Correction Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/correction-policy/>.

4.6. MARKET DISRUPTION

In periods of market stress SOLACTIVE calculates its indices following predefined and exhaustive arrangements as described in the Solactive Disruption Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/disruption-policy/>. Such market stress can arise due to a variety of reasons, but generally results in inaccurate or delayed prices for one or more INDEX COMPONENTS. The determination of the INDEX may be limited or impaired at times of illiquid or fragmented markets and market stress.

5. MISCELLANEOUS

5.1. DISCRETION

Any discretion which may need to be exercised in relation to the determination of the INDEX (for example the determination of the INDEX UNIVERSE (if applicable), the selection of the INDEX COMPONENTS (if applicable) or any other relevant decisions in relation to the INDEX) shall be made in accordance with strict rules regarding the exercise of discretion or expert judgement.

5.2. METHODOLOGY REVIEW

The methodology of the INDEX is subject to regular review, at least annually. In case a need of a change of the methodology has been identified within such review (e.g. if the underlying market or economic reality has changed since the launch of the INDEX, i.e. if the present methodology is based on obsolete assumptions and factors and no longer reflects the reality as accurately, reliably and appropriately as before), such change will be made in accordance with the Solactive Methodology Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/methodology-policy/>.

Such change in the methodology will be announced on the SOLACTIVE website under the Section "[Announcement](https://www.solactive.com/news/announcements/)", which is available at <https://www.solactive.com/news/announcements/>. The date of the last amendment of this INDEX is contained in this GUIDELINE.

5.3. CHANGES IN CALCULATION METHOD

The application by the INDEX ADMINISTRATOR of the method described in this document is final and binding. The INDEX ADMINISTRATOR shall apply the method described above for the composition and calculation of the INDEX. However, it cannot be excluded that the market environment, supervisory, legal and financial or tax reasons may require changes to be made to this method. The INDEX ADMINISTRATOR may also make changes to the terms and conditions of the INDEX and the method applied to calculate the INDEX that it deems to be necessary and desirable in order to prevent obvious or demonstrable error or to remedy, correct or supplement incorrect terms and conditions. The INDEX ADMINISTRATOR is not obliged to provide information on any such modifications or changes. Despite the modifications and changes, the INDEX ADMINISTRATOR will take the appropriate steps to ensure a calculation method is applied that is consistent with the method described above.

5.4. TERMINATION

SOLACTIVE makes the greatest possible efforts to ensure the resilience and continued integrity of its indices over time. Where necessary, SOLACTIVE follows a clearly defined and transparent procedure to adapt Index methodologies to changing underlying markets (see Section 5.2 "Methodology Review") in order to maintain continued reliability and comparability of the indices. Nevertheless, if no other options are available the orderly cessation of the INDEX may be indicated. This is usually the case when the underlying market or economic reality, which an index is set to measure or to reflect, changes substantially and in a way not foreseeable at the time of inception of the index, the index rules, and particularly the selection criteria, can no longer be applied coherently or the index is no longer used as the underlying value for financial instruments, investment funds and financial contracts.

SOLACTIVE has established and maintains clear guidelines on how to identify situations in which the cessation of an index is unavoidable, how stakeholders are to be informed and consulted and the procedures to be followed for a termination or the transition to an alternative index. Details are specified in the Solactive Termination Policy, which is incorporated by reference and available on the SOLACTIVE website: <https://www.solactive.com/documents/termination-policy/>.

5.5. OVERSIGHT

An oversight committee composed of staff from SOLACTIVE and its subsidiaries (the "**OVERSIGHT COMMITTEE**") is responsible for decisions regarding any amendments to the rules of the INDEX. Any such amendment, which may result in an amendment of the GUIDELINE, must be submitted to the OVERSIGHT COMMITTEE for prior approval and will be made in compliance with the Methodology Policy, which is available on the SOLACTIVE website: <https://www.solactive.com/documents/methodology-policy/>.

6. DEFINITIONS

“**BENCHMARK REGULATION**” shall have the meaning as defined in Section “Introduction”.

“**BMR**” shall have the meaning as defined in Section “Introduction”.

“**BUSINESS DAY**” is every weekday from Monday to Friday.

“**CALCULATION DAY**” is every BUSINESS DAY. A day on which the Toronto Stock Exchange is not open for general business is not a CALCULATION DAY.

“**CLOSE OF BUSINESS**” is the calculation time of the closing level of the INDEX as outlined in Section 1.4.

The “**CLOSING PRICE**” in respect of an INDEX COMPONENT and a TRADING DAY is a security's final regular-hours TRADING PRICE published by the EXCHANGE and determined in accordance with the EXCHANGE regulations. If the EXCHANGE has no or has not published a CLOSING PRICE in accordance with the EXCHANGE rules for an INDEX COMPONENT, the last TRADING PRICE will be used.

“**EXCHANGE**” is with respect to the INDEX and every INDEX COMPONENT, the respective exchange where the INDEX COMPONENT has its listing as determined in accordance with the rules in Section 2.

“**ETF CATEGORY**” is the 1st tier within the Asset Class assigned to the ETF according to the FactSet methodology.

“**ETF FOCUS**” is the 2nd tier within the Asset Class assigned to the ETF according to the FactSet methodology.

“**ETF NICHE**” is the most defined tier within the Asset Class assigned to the ETF according to the FactSet methodology.

“**GUIDELINE**” shall have the meaning as defined in Section “Introduction”.

“**INDEX**” shall have the meaning as defined in Section “Introduction”.

“**INDEX ADMINISTRATOR**” shall have the meaning as defined in Section “Introduction”.

“**INDEX COMPONENT**” is each security reflected in the INDEX.

“**INDEX COMPONENT REQUIREMENTS**” shall have the meaning as defined in Section 2.2.

“**INDEX CURRENCY**” is the currency specified in the column “Currency” in the table in Section 1.2.

“**INDEX UNIVERSE REQUIREMENTS**” shall have the meaning as defined in Section 2.1.

“**INDEX UNIVERSE**” is the sum of all financial instruments which fulfill the INDEX UNIVERSE REQUIREMENTS.

“**LIVE DATE**” shall have the meaning as defined in Section 1.3.

“**OVERSIGHT COMMITTEE**” shall have the meaning as defined in Section 5.5.

“**REBALANCE DAY**” is the last TRADING DAY of July and January.

“**REPLACEMENT LIST**” is the list of eligible replacement securities, identified on each **SELECTION DAY** and **REVIEW DAY**, that satisfy the criteria outlined in Section 2.1 and Section 2.2.

“**REVIEW ADJUSTMENT DAY**” is the last **TRADING DAY** of every month, excluding July and January.

“**REVIEW DAY**” is 5 **CALCULATION DAY** before the scheduled **REVIEW ADJUSTMENT DAY**.

“**SELECTION DAY**” is 5 **CALCULATION DAY** before the scheduled **REBALANCE DAY**.

“**SOLACTIVE**” shall have the meaning as defined in Section “Introduction”.

“**START DATE**” shall have the meaning as defined in Section 1.3.

“**TRADING DAY**” is with respect to an **INDEX COMPONENT** included in the **INDEX** at the **REBALANCE DAY** and every **INDEX COMPONENT** included in the **INDEX** at the **CALCULATION DAY** immediately following the **REBALANCE DAY** (for clarification: this provision is intended to capture the **TRADING DAYS** for the securities to be included in the **INDEX** as new **INDEX COMPONENTS** with close of trading on the relevant **EXCHANGE** on the **REBALANCE DAY**) a day on which the relevant **EXCHANGE** is open for trading (or a day that would have been such a day if a market disruption had not occurred), excluding days on which trading may be ceased prior to the scheduled **EXCHANGE** closing time and days on which the **EXCHANGE** is open for a scheduled shortened period. The **INDEX ADMINISTRATOR** is ultimately responsible as to whether a certain day is a **TRADING DAY**.

The “**TRADING PRICE**” in respect of an **INDEX COMPONENT** and a **TRADING DAY** is the most recent published price at which the **INDEX COMPONENT** was traded on the respective **EXCHANGE**.
