

FACTSHEET - AS OF 28-Jun-2024

Solactive ISS Paris Aligned Select Euro Corporate IG Index

DESCRIPTION

The Solactive ISS Paris Aligned Select Euro Corporate IG Index is a rules-based index, engineered to measure the performance of liquid, euro denominated, investment grade corporate debt. The index provides exposure to a portfolio, which is based on ISS ESG climate analysis and is in line with a 1.5°C scenario through 2050. At the same time the index displays very similar credit and interest rate risk distributions compared to the Benchmark Index, i.e., the Solactive Euro IG Corporate Index (SOLEUIGC). To achieve the 1.5°C scenario, the weighted Greenhouse Gas Emissions and Greenhouse Gas Intensities of the Index are reduced compared to the Benchmark Index. On a semi-annual basis, for the selection days in January and July, both measures are reduced to be in line with a yearly decarbonization rate of at least 7%. The basis for the self-decarbonization trajectory is the respective Base Date (31/01/2022 for Greenhouse Gas Emissions and 31/01/2023 for Greenhouse Gas Intensities). The Index Currency is EUR.

HISTORICAL PERFORMANCE

CHARACTERISTICS

ISIN / WKN	DE000SL0AY79 / SL0AY7	Base Value / Base Date	1000 Points / 18.11.2020
Bloomberg / Index RIC	SOLESPAB Index / .SOLESPAB	Last Index Value	941.16
Index Calculator	Solactive AG	Index Members	1000
Index Type	Total Return	Calculation	8:00 am to 23:05 pm (CET), every 15 seconds
Index Currency	EUR	Backtest Start Date	18.11.2020

STATISTICS

EUR	1Y	3Y	5Y	YTD	Since Inception

The information contained in this factsheet is impersonal, not tailored to the needs of any person, entity or group of persons and for informational purposes only. The information contained herein has been obtained from public sources believed to be reliable, but no representation or warranty, express or implied, is made that such information is accurate or complete and it should not be relied upon as such. The content is provided on an "as is" basis. Solactive AG accepts no responsibility or liability for any errors or for any loss from use of this factsheet or any of the information or data contained herein. In no event shall Solactive AG be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees, or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of the factsheets and its content even if advised of the possibility of such damages.

It is not possible to invest directly in an index. Exposure to assets represented by an index is available through investable financial instruments that seek to provide an investment return based on the performance of an index. A decision to invest in any such financial instrument should not be made in reliance on any of the statements set forth in this document. Prospective investors are advised to make an investment in any such financial instrument only after carefully considering the risks associated with investing in such financial instruments, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the financial instrument or vehicle.

The financial instruments are not sponsored, promoted, sold or supported in any other manner by Solactive AG nor does Solactive AG offer any express or implicit guarantee or assurance either with regard to the results of using the Index and/or Index trade mark or the Index level at any time or in any other respect. Solactive AG makes no assurance that financial instruments based on the index will accurately track index performance or provide positive investment returns. Solactive AG is not an investment adviser and nothing in this factsheet constitutes a recommendation by Solactive AG to invest capital in financial instruments nor does it in any way represent an assurance or opinion of Solactive AG with regard to any investment in a financial instrument. Inclusion of a security within an index is not a recommendation by Solactive AG to buy, sell, or hold such security, nor is it considered to be investment advice.

The index is launched on 18-Nov-2020. All information, including index levels, provided for any date or time period prior to the launch date is back-tested. Back-tested performance is not actual performance, but is hypothetical. The back-test calculations are based on the same or fundamentally the same methodology that was in effect when the index was launched. A back-test calculation means that no actual investment which allowed a tracking of the performance of the Index was possible at any time during the period of the back-test calculation and that as a result any comparison is purely hypothetical. The methodology and the model used for the calculation and back-test calculation of the Index were developed with the advantage of hindsight. In reality, it is not possible to invest with the advantage of hindsight and therefore this performance comparison is purely theoretical.

Past performance should not be considered as indication or guarantee of any future results. Charts and graphs are provided for illustrative purposes.
