## Solactive USD High Yield Corporates Total Market 0-5 Year Index

### DESCRIPTION

The Solactive USD High Yield Corporates Total Market 0-5 Year Index is a rules-based, market value weighted Index designed to track the performance of High Yield rated corporate bonds issued in USD with 0 to 5 years term to maturity. The issuer's domicile is not relevant. The Solactive USD High Yield Corporates Total Market 0-5 Year Index is a Total Return Index, i.e. coupon payments will be reinvested in the index on each Adjustment day.

The Index Components are weighted according to their respective Market Values in proportion to the aggregated Market Value of all Index Components in the index. At the respective Selection Day prior to the Adjustment Day, issuer weights are capped at 3%. Excess weights will be redistributed on a pro rata basis among issuers whose weights are less than 3%. The process is iterated till no issuer has weight higher than 3%. The resulting weights are called final issuer capped weight.
